R.K. CONSTRUCTIONS

Infrastructure, Engineering & Development

OVERVIEW

R.K.CONSTRUCTIONS is an emerging infrastructure development company, where innovation meets precision in the world of construction. With a decade of experience and a commitment to excellence, we specialize in delivering high quality, efficient solutions for complex Industrial and Infrastructure projects. Our expert team combines cutting-edge technology with a deep understanding of industry standards to ensure every project is completed on time, within budget, and to the highest specifications. At **RKC**, we build more than structures; we build lasting partnerships and transformative spaces that drive success.

Mission:

At **RKC**, our mission is to lead the construction industry with a commitment to excellence, safety, and innovation. Our goal is to exceed client expectations through meticulous planning, transparent communication, and exceptional craftsmanship. We are dedicated to building long-term relationships based on trust, integrity, and mutual success, while continuously improving our processes and contributing to the growth of the communities we serve.

Vision:

Our vision is to be the premier choice in construction industry, renowned for our innovation, sustainability, and excellence. We aspire to shape the future of industrial infrastructure by setting new standards in quality and efficiency, while embracing technological advancements and sustainable practices.

As of now we are handling projects worth 10Cr annually and aiming higher keeping quality and client satisfaction as our top priority.

Strength:

Presently having work force approximate 300+, varying as per assignment in hand. We are handling site execution with back up of 15+ engineer/technical staff, 2 ajax, 2 JCB, 1 excavator and other machinery and shuttering/scaffolding material as per site requirement.

CORE VALUES

Excellence: We pursue excellence in all aspects of our work, delivering projects of the highest quality that exceed client expectations.

Integrity: We uphold the highest ethical standards, fostering trust and transparency in our interactions with clients, partners, and stakeholders.

Safety: Safety is our top priority. We are dedicated to creating a secure work environment through rigorous standards, comprehensive training, and continuous vigilance to ensure the well-being of our team and the success of every project.

Planning & Deliverables: Our meticulous planning, efficient workflows, and proactive management ensure that every project is delivered on schedule, without compromising quality or safety.

SERVICES

Industrial Construction:

We are in construction of integrated steel plants since last one decade. Our industrial construction services encompass the full spectrum of project needs, from conceptual design and engineering to final construction and ongoing maintenance. We specialize in building high-performance facilities that meet the rigorous demands of industrial operations, ensuring optimal efficiency, safety, and durability. By integrating advanced technologies and adhering to strict quality standards, we deliver solutions that support your business goals and enhance operational success.

We have a rich experience in construction of greenfield & brownfield projects of:

- **Infrastructure development (RCC road, drains, boundary wall)**
- **Sinter Plant, Blast furnace, PCI**
- **Power Plants**
- **Pellet Plant & DRI**
- **Water treatment plant**
- **Effluent Treatment Plant (ETP PROJECT)**
- **Lamella clarifier tank**
- **SAF area road work, BAG HOUSE PROJECT, store.**
- **Oxygen plant: Cooling tower flooring.**
- **Rail forging road work.**

PROJECTS

Industrial Construction:

- **Construction of water treatment plant at Jindal Power & Steel, Raigarh.**
